

BOX 100FD

The most suitable milk vending machine for shops and indoor public spaces

Box 100 has been designed to sell milk in small shops. It occupies little space, is silent and easily connected to a simple power socket. It is provided with a 95 l tank, placed on wheels and thus easily removable and above all, it has the supply circuit (pump, measuring unit and piping) entirely removable for cleaning outside the shop, in the premises.

Latteria
ProMeteA

The vending machine range for all needs.

BOX 100FD

Its reduced dimensions allow to easily place it also in small shops.

It has a front access door for the filling.

Its washable and white painted structure keeps it clean and hygienic.

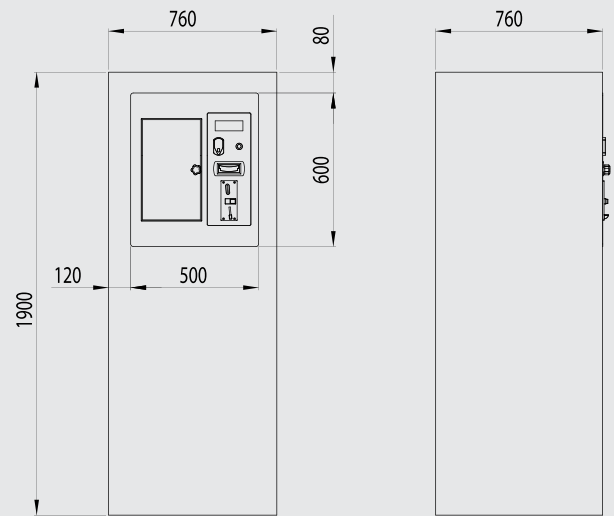

The tank and removable circuit allow a quick filling in the shop and an accurate cleaning of the components in the premises.

The supply vane is cleaned after each supply.

Precise in the supplied amount, thanks to its certified measuring unit.
