

PENSILINA

**The milk point of sale,
entirely in steel**

Pensilina is a complete point of sale for selling milk, ready to be located and started.

It has a varnished iron structure and stainless steel walls. It can be lifted and transported to the distribution point with the dispensers.

It is provided with front access doors and a third vane for the storage of utilized materials for the placement of a supplementary dispenser for milk or cheeses.

Easily positioned on a flat platform, it only needs to be connected to a 220 V power supply.
